

DETAILED ACTION

Status of the Application

This Office Action is in response to applicant's response filed on 7/22/09.

Applicant's election **with** traverse of the restriction requirement in the reply is acknowledged. The traversal is on the ground(s) that the compounds disclosed in US 2002/0006954 A1 are different from the instantly claimed compounds, therefore making the instant subject matter a contribution over the prior art and the requirements of unity of invention fulfilled. Without acquiescing to Applicant's arguments, the restriction requirement filed on 5/22/09 is hereby withdrawn.

Claims 1-17 are cancelled. Claims 18-34 are pending and examined herein.

After searching the prior art, claims 18-28 are free of the prior art because the compound of the general formula I is a novel compound. Therefore, claims 18-28 are in condition for allowance.
